

*Aadinath Brass Industries*

Exporter of High Quality Precision Metal Components

A high-angle, aerial photograph of four skydivers in freefall. They are wearing bright orange jumpsuits with black harnesses and helmets. One skydiver in the foreground is wearing a blue vest over their orange suit. They are positioned in a loose cluster, with their limbs outstretched. Below them, a winding river flows through a landscape of green fields and patches of brown earth. In the distance, a city with numerous buildings and a highway is visible under a clear blue sky.

## Trusted *Since 1975*

Aadinath Brass Industries(ABI) is the trusted for providing Customized High Quality Precision Metal Components. Incepted in 1975 with hand operated & semi automatic machines, ABI had a goal "to be passionate in anticipating & providing the best quality precision metal components at competitive price globally."

The foundation of the company's growth over the last 40 years is a deep understanding of manufacturing and the ability to translate them into customer-desired offerings through

leading edge of R&D. Today ABI - An ISO Certified company enjoys highest reputation as manufacturers & suppliers of précised quality components which are used by Original Equipment Manufacturers (OEMs) meant for cars, motor cycles & other Automobile industries globally. Similarly ABI also supplies to the electrical & electronic Industries.

ABI is a growing company It always aims for better quality, better technology and further global reach.

**2014**

Top most companies of Automotive, Electric & many industries

**1975**

At inception stage, supplying to local customers

**1979**

Start to supply to 2 states

**2011**

Supply to 14 states

**2008**

Supplies to electric & electronics industries

**1982**

Started Supply in Tier-1 Automobile Company

**1988**

Setup 2nd unit

**2006**

Cover almost all Major Automobile companies

**2004**

Obtained ISO 9001:2008 certificate

**2003**

Setup 3rd unit with enough capacity. Upgrade to Fully automatic machines.

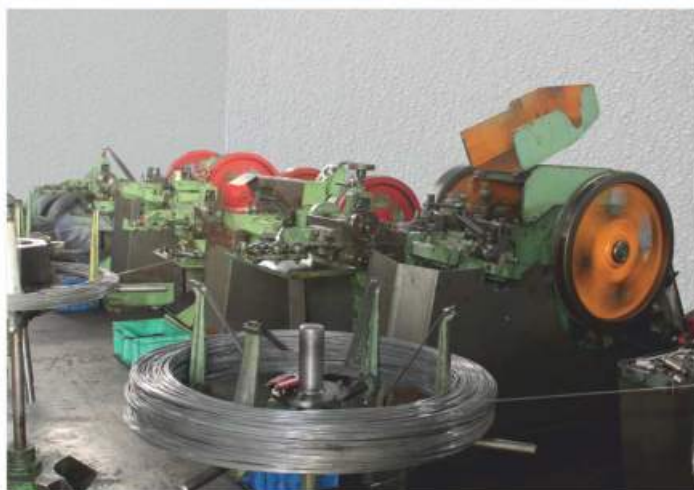

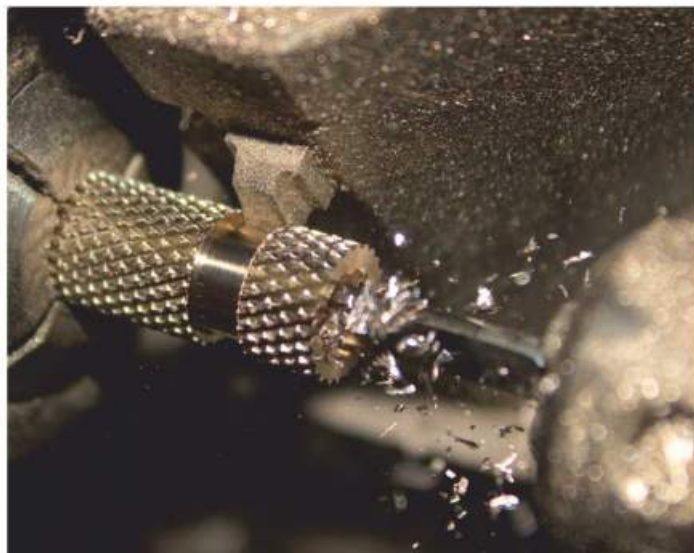

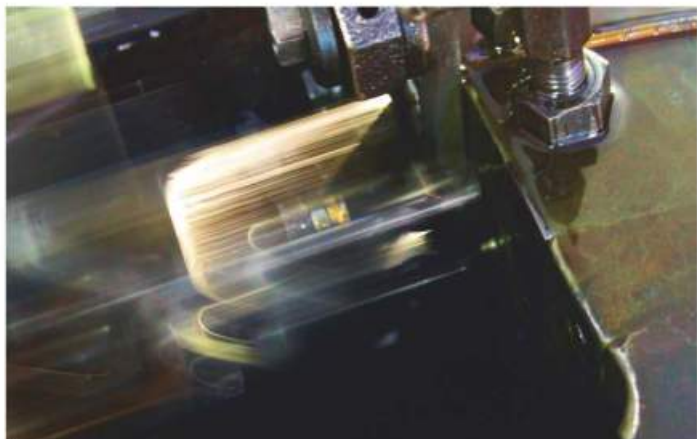

**1995**

Covered 9 states

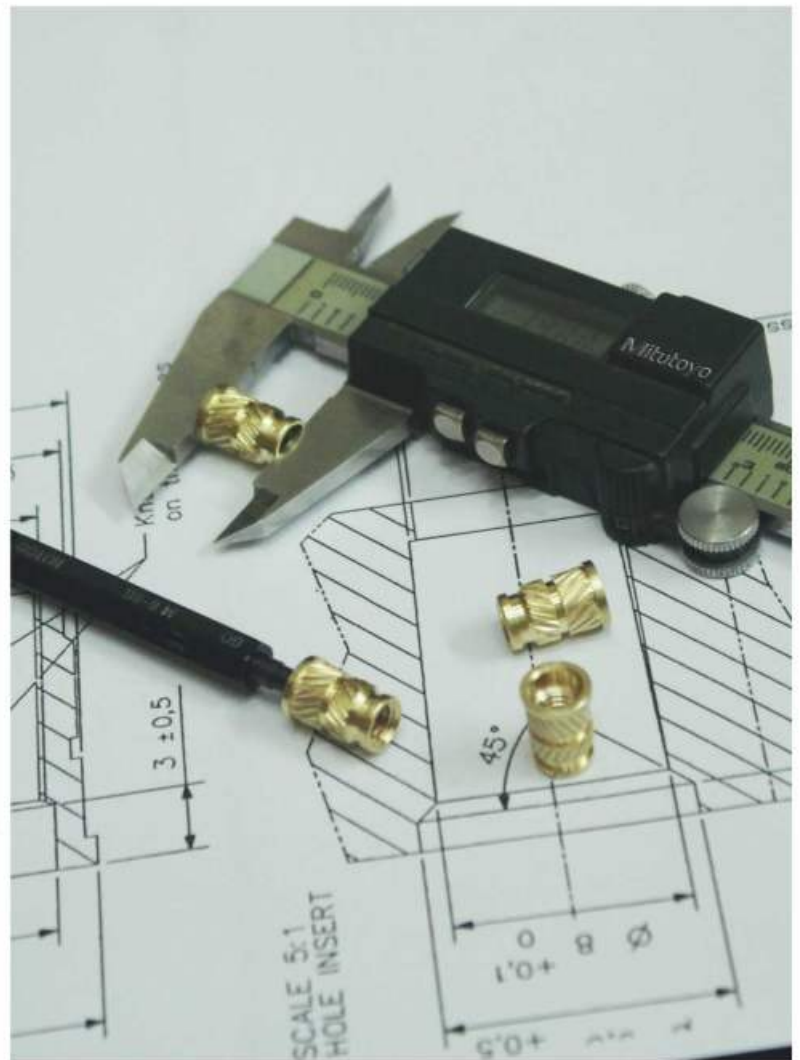

# Manufacturing Capabilities

Manufacturing high quality components with latest technology & mass production are core competence at Aadinath Brass Industries. At the time of incorporation stage in 1975 ABI had established one unit. Over the period of time, we captured the market with continuous strive for best production and expanded to three units. Today ABI has big number of satisfied OEMs

customer globally. TQM (Total Quality Management) policy & High quality standard benchmarks always keep ABI active for new innovation & hard work to maintain quality products.

Processes	Automatic Turning, Hard Turning, Full Turning, Annealing Forging, Milling, Drilling, Phosphating Zinc Plating
Process range	Dia: 1 MM to 75 mm Across flat: 2.5 mm to 50mm Square: 2.5 mm to 50 mm Diameter can be maintained within 10 microns Head Style : Hex, Pan and Mushroom and Cheese, Round & Oval, Cross-Recessed, Flat, Trust Head Screw etc. Drive Style : Slotted, Phillips, Combination, Hex Socket, Pozi, etc.
Metal We machine	Brass, SS, Steel, Aluminum
Additional Docs	PPAP

TQM (Total Quality Management) is the key policy applied by Aadnath Brass Industries. ABI an ISO 9001:2008 certified company provides commitment towards quality components and always stay as a top of OEMs and other customer. ABI always strive for maintaining Zero PPM.

Enough precautions are taken right from Raw Material Procurement till Pre Dispatch Inspection Report to deliver quality components.

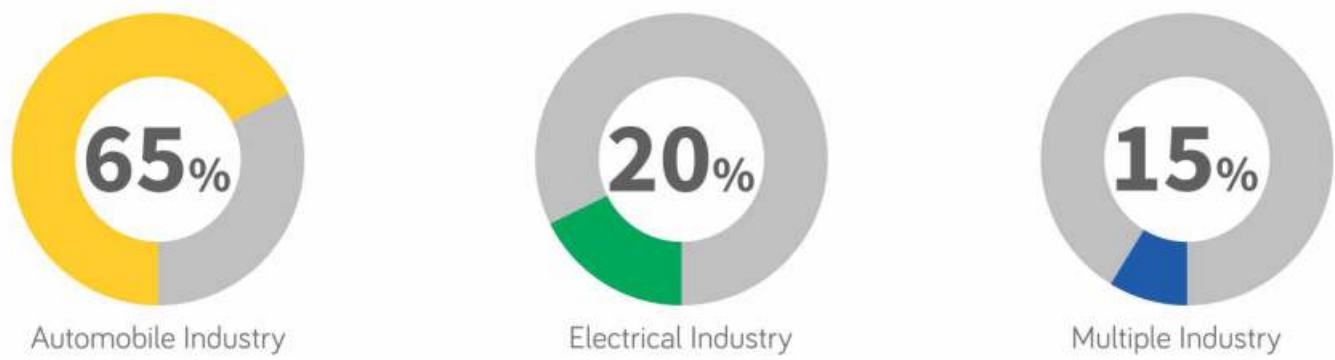

## List of Instruments

- › Vernier
- › Micro Meter
- › Thread Pitch Micro Meter
- › Thread gauges, ring gauges and Plug gauges
- › ID gauges
- › Radius gauges
- › Special purpose gauges to control critical dimensions
- › Many other measuring instruments
